About SC Comms & Utilities

Overview

- SC Comms & Utilities has forged an outstanding reputation and proven record of providing specialist advice and implementation of utility infrastructure since 2002.
- We are able to handle requirements for individual customer driven projects, through to management and execution of large scale projects for the principal stakeholders.
- At SC Comms & Utilities, we are a dedicated, hands on management team who are multi-skilled and able to adapt and overcome any unforeseen challenges.
- The SC Comms & Utilities name is synonymous with integrity, experience, expert advice and the ability to deliver jobs on time and on budget.

Communications

Communications is where we started and it is our core service. This is our strength and our expertise. Let us help make your job easier.

Utilities

SC Comms & Utilities offers a complete end to end solution. We take ownership of the problem and with proven processes find the best solution for you.

National Coverage

In 19 years we have grown to offer services in every state and territory in Australia – except for WA, and we are going there next! Each state manager takes a ‘hands on’ approach to managing your work.

Sustainability & Accreditations

ISO Accreditation

In 2018 SC Comms & Utilities made the commitment for continual improvement by obtaining; ISO9001 (Quality Management), ISO14001 (Environmental Management) and ISO45001 (OH&S Management System). This accreditation was recertified again in 2021.

SC Comms & Utilities senior management recognises that leading and operating an organisation successfully requires managing it in a systematic and visible manner. We understand that business success results from implementing and maintaining a management system that is designed to not only identify and maintain our environment, but also to continually improve the effectiveness and efficiency of the organisation's processes and overall performance.

Our Cyber Security

Our company is committed to maintaining a high level of cybersecurity and follows recommended mitigation strategies, from ISO 27001, NIST (National Institute of Standards & Technology) and the Australia Cyber Security Centre (ACSC) Essential Eight (Maturity Level 2), to ensure the protection of our customers' data and sensitive information.

Sustainability

We are committed to supporting sustainable development and infrastructure and are constantly looking for ways to improve the way in which we do business in order to promote a sustainable future.

It is a major focus at SC Comms & Utilities to ensure that all legislative and statutory requirements are complied with and that we utilise the strength of our multi skilled and experienced workforce to guarantee a professional solution and exceptional service.
